

# KAISER PERMANENTE®

## San Jose Medical Center

### Post Graduate Year Two (PGY2) Psychiatry Pharmacy Residency Program at a Glance

*“This residency will be the best investment of time and effort you will make in your career development”*

#### Overview

The Kaiser Permanente San Jose PGY2 Psychiatry Pharmacy Residency Program provides a comprehensive learning experience in a variety of areas related to mental health. Training experiences include rotations in the Inpatient and Ambulatory Care settings. In addition to working closely with preceptors, physicians, and patients to become an integral part of the psychiatry care team, the psychiatry pharmacy resident will work closely with psychiatry medical residents; coupling together as a team during specific psychiatry rotations to enhance the depth of the pharmaceutical and the didactic learning experience.

The Kaiser Permanente San Jose PGY2 Psychiatry Residency Program provides an innovative, challenging and dynamic learning environment to its residents. Residents will experience caring for patients with a wide range of mental health conditions such as depressive disorders, anxiety disorders, insomnia, ADHD, neurocognitive disorders, bipolar disorders, substance use disorders, and psychotic disorders.

Residents who successfully complete the PGY2 Psychiatry Pharmacy Residency Program will be prepared for advanced patient care, academia, or other specialized positions, along with board certification in psychiatry pharmacy.

#### Clinical Experiences

Core Rotations	Elective Rotations	Longitudinal Experiences
