

## NATIONAL PHARMACY RESIDENCY PROGRAMS

# we stand for expertise

## Residency Programs and Contact Information

We believe in setting higher expectations. That career ladders don't have to be linear. And that partnership leads to success. As a pharmacist at Kaiser Permanente, you have the freedom to put these beliefs into practice. Whether you're counseling patients, partnering with physicians, or working with colleagues, you're acquiring and contributing knowledge in an information-rich environment. And if you want to seek greater challenges, you're supported with a wide array of specialty training and professional opportunities. If you believe in the continued pursuit of excellence, then there's no better place to put your beliefs into practice.

Nationally, Kaiser Permanente offers 35 PGY1 and 14 PGY2 programs which include a total 73 PGY1 positions and 20 PGY2 positions. Our specialty PGY2 programs focus on Ambulatory Care, Health System Pharmacy Administration - Management, Medication-Use Safety & Policy, Oncology, Pharmacy Informatics and Psychiatry. Each PGY1 & PGY2 residency program offers various core and elective rotations designed around the resident's professional goals and objectives.

For more information about our programs and [upcoming virtual information sessions](#), please visit our website at [pharmacyresidency.kp.org](http://pharmacyresidency.kp.org) or contact our programs listed below:

### **Colorado**
