

Kaiser Permanente Northwest

PGY-2 Ambulatory Care Pharmacy Resident Biography 2022-2023

Cole Bodine, PharmD

Hometown: Culpeper, Virginia

Pharmacy school: Virginia Commonwealth University, Richmond VA

PGY1: Kaiser Permanente Northwest; Portland Oregon

Professional interests: Primary care, formulary and drug use management, population health and medication access

Hobbies: I enjoy exploring Portland, coastal Oregon, and Hood National Forest by bike! I am also an avid foodie who loves to cook, attempting to eat my way through some of the thousands of restaurants and food carts in Portland.

Research Project: Real-world efficacy of GLP-1 receptor agonist use in patients on high-dose intensive insulin therapy.

Why I chose Kaiser Permanente Northwest: What initially drew me to Kaiser Permanente for my PGY-1 year was their dedication to providing high-quality and affordable healthcare. Completing my Pharmacy school in Richmond, VA, I was fortunate enough to work with underserved patients and see the impact access to healthcare could have on their lives. I believe that Kaiser Permanente's Not-for-profit Managed Care model is the gold standard for expanding healthcare access to patients nationwide. In addition, the people within the organization and the variety of clinical rotations offered made it easy for me to choose to stay a second year. I can see the investment the preceptors and program directors are making in my growth and development, and I couldn't imagine pursuing my postgraduate training elsewhere!
