

KAISER PERMANENTE®

San Jose Medical Center

Post Graduate Year Two (PGY2) Psychiatric Pharmacy Residency Program at a Glance

"This residency will be the best investment of time and effort you will make in your career development"

Overview

The purpose of the PGY2 pharmacy residency program is to build on the Doctor of Pharmacy (PharmD) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies provide residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experiences and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Residents who successfully complete an accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification.

The Kaiser Permanente San Jose PGY2 Psychiatric Pharmacy Residency Program provides a comprehensive learning experience in a variety of areas related to mental health. Training experiences include rotations in the inpatient and ambulatory Care settings. In addition to working closely with preceptors, physicians, and patients to become an integral part of the psychiatric care team, the psychiatric pharmacy resident will work closely with psychiatric medical residents; coupling together as a team during specific psychiatry rotations to enhance the depth of the pharmaceutical and the didactic learning experience.

Clinical Learning Experiences

Core	Elective [^]	Longitudinal
<ul style="list-style-type: none">• Orientation (3 weeks)• Drug Use Management (4 weeks, Formulary Management)• Adult Psychiatry I (6 weeks, General, Ambulatory Care)• Adult Psychiatry II (6 weeks, Severe, Persistent Mental Illness, Ambulatory Care)• Inpatient I (8 weeks, Behavioral Health Unit)• Inpatient II (4 weeks, Medical Psychiatric Unit)• Geriatric Psychiatry/Consult Liaison Service (6-week split, Ambulatory Care/Inpatient)	<ul style="list-style-type: none">• Addiction Medicine Recovery Services• Pain Management• HIV• Hospice• Child Psychiatry	<ul style="list-style-type: none">• CME (3 months)• Leadership series (12 months)• Research (12 months)• Teaching (12 months)• Drug Use Management (3 months)• Regional MUE (3 months)
