January 2, 2024 11:59 PM EST

Program Details

Residency Program Purpose

PGY1 residency programs build upon Doctor of Pharmacy (PharmD) education and outcomes to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives. Residents who successfully complete PGY1 residency programs will be skilled in diverse patient care, practice management, leadership, and education, and be prepared to provide patient care, seek board certification in pharmacotherapy, and pursue advanced education and training opportunities including postgraduate year two (PGY2) residencies.

The Los Angeles Medical Center is Kaiser Permanente's oldest pharmacy residency program. We host two residency positions in an ASHP accredited PGY1 Pharmacy Residency program.

Program Highlights

Characteristics that highlight the program include:

- Excellent physician teamwork
- Direct patient care activities
- Active participation in evidence-based medicine
- Development of written and oratory presentation skills
- Physician education
- Pharmacy leadership development

LAMC partners with South Bay, Downey, and Baldwin Park in a Leadership Series with the residents, program directors, managers and leaders in pharmacy practice.
