

# Pharmacy Residency Program

## Postgraduate Year One (PGY-1)

### *Join an organization founded on innovative thinking*

- This twelve-month Postgraduate Year One (PGY1) pharmacy residency program is accredited by the American Society of Health Systems Pharmacists (ASHP) and offers a unique opportunity to develop expertise in a variety of pharmacy practice areas within Kaiser Permanente.
- Kaiser Permanente provides leadership to the health care industry and serves as a model for the efficient delivery of quality care.
- From patient focused disease management services, to outpatient point-of-service care, to specialized support services, our pharmacy department is continually striving to develop innovative programs that enhance quality of patient care.
- Our Mid-Atlantic States Region serves a large outpatient population of over 800,000 members in 37 outpatient medical centers located in Maryland, Virginia and Washington D.C.
- Learning experiences are diverse, and preceptors are well versed in their specialty areas and serve as excellent mentors to the resident.

### *Purpose*

PGY1 Program Purpose: PGY1 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

The Kaiser Foundation Health Plan of the Mid-Atlantic States Post Graduate Year One (PGY-1) pharmacy residency program focuses on ambulatory care within an integrated health care system. During the residency program, residents will integrate clinical, administrative and leadership skills and cultivate a philosophy of practice that embraces being responsible to their patients, their fellow healthcare providers, the organization and the public for optimal drug therapy outcomes.

# Residency Overview

## Postgraduate Year One (PGY-1)
