

2024-25 Resident
Vincent Phan

Kaiser Permanente San Diego

PGY1 Community-Based Pharmacy Residency

Program Overview

The Kaiser Permanente, San Diego Community-Based Pharmacy Residency Program will prepare the residency graduates to develop and provide advanced patient care services, become leaders, and practice change agents in the Community-Based pharmacy setting. It is a 52-week postgraduate curriculum that offers training in community pharmacy, drug information, practice leadership and a variety of ambulatory care services. The program is designed and implemented around the resident's professional and personal goals. The resident is offered a variety of core, elective, and longitudinal experiences. The resident will actively participate in Community-Based outreach events, as well as a variety of precepting and educational opportunities.

Current Accreditation Status:

This residency program is accredited by the American Society of Health-System Pharmacists in conjunction with American Pharmacists Association.

The PGY1 Community-Based Pharmacy Residency Program at the Kaiser Permanente Medical Center in San Diego follows guidelines set by the American Society of Health-System Pharmacists and provides thorough training in a variety of specialties. This residency site agrees that no person at this site will solicit, accept, or use any ranking related information from any residency applicant.

One resident will be accepted into the program to begin on July 1, 2025.
