Why I chose Kaiser Permanente Northwest:

I chose a residency at Kaiser Permanente Northwest because of the variety of opportunities available and the strong focus on team-based, patient-centered care. I really value how pharmacists here get to work at the top of their license and play an active role in improving patient outcomes, which is something that aligns perfectly with my goal of working in ambulatory care. During the interview process, the team's passion and support were clear, and I immediately felt this was a place where I could grow and thrive. I'm looking forward to the chance to learn through a range of rotations and continue growing into a confident, well-rounded pharmacist.
