

AMBULATORY CARE POSTGRADUATE YEAR TWO (PGY2) PHARMACY RESIDENCY PROGRAM

Maryland, Virginia and Washington, DC

At Kaiser Permanente, we view pharmacists as a vital link in the chain of patient care.

Kaiser Permanente serves more than 750,000 members across 41 outpatient medical facilities in Maryland, Virginia, and Washington, DC. Our 52-week Postgraduate Year Two (PGY2) pharmacy residency program in Ambulatory Care is accredited by the American Society of Health Systems Pharmacists (ASHP) and offers a unique opportunity to develop expertise in a variety of pharmacy practice areas within Kaiser Permanente.

Kaiser Permanente provides leadership to the health care industry and serves as a model for the efficient delivery of quality care. From patient focused disease management services to outpatient point-of-service care, to specialized support services, our pharmacy department is continually striving to develop innovative programs that enhance quality of patient care.

Located in and around our Nation's Capital, the Mid-Atlantic region offers endless professional, cultural, and social opportunities.

***PGY2 Program Purpose:** PGY2 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D.) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies provide residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Residents who successfully complete an accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification, if available.

The Kaiser Foundation Health Plan of the Mid-Atlantic States Post Graduate Year Two (PGY2) Ambulatory Care residency program focuses on ambulatory care within an integrated health care system. During the residency program, residents will hone their leadership, clinical, and academic skills and cultivate a philosophy of practice that embraces being responsible to their patients, their fellow healthcare providers, the organization and the public for optimal drug therapy outcomes. Graduates of this program will be well prepared to practice as a clinical pharmacy specialist across a variety of ambulatory care settings.

Learning Experiences

Core	Selectives (4 weeks) *must pick 2	Electives (4 weeks/ flexible)
Orientation (3 weeks) Primary Care (12 weeks) Drug Use Management (6 weeks) Clinical Specialty Management (6 weeks)	Nephrology Infectious Disease/HIV Behavioral Health Anticoagulation Gastroenterology Pain Management Pediatrics	Clinical Oncology Infusion Transitional Care Quality/ Medication Safety Medication Therapy Management (MTM)

- Leadership Development Program centered around three core elements: Leading yourself, Leading others, and Leading the profession
- Develop a new clinical service structure, business plan proposal, budget assessment and proposal

Balance Both Autonomy and Support

While support is always available, you will be given opportunities to make your own critical decisions.

Working with our pharmacist, support staff, and other care providers to care for our patients, you'll see the definition of collaboration come to life. You'll be an integral member of our health care team. At Kaiser Permanente, we trust your instincts and empower you to make the decisions you believe are necessary for our patients' well-being.

Enjoy competitive benefits

- Salary: \$73,132 per year
- Medical, dental, and vision coverage
- Paid time off (up to 10 days requested by the resident)
