

Sophia Borgen, PharmD

Hometown: Boise, Idaho

Pharmacy School: Oregon State University/Oregon Health and Science University

Interests: ambulatory care (primary care, diabetes, pain management, mental health)

Hobbies: Reading, crafting, spending time with my cat and partner, and trying out new restaurants.

Why I chose Kaiser Permanente Northwest: I chose a residency at Kaiser Permanente Northwest because of its strong ambulatory care focus, unique elective opportunities like travel clinic and pain management, and its emphasis on creating a safe and inclusive environment for its patients and team. I've felt nothing but support and encouragement from the KP team so far. I'm looking forward to growing my clinical knowledge by learning in an environment of passionate pharmacists that work at the top of their license!
